

Vivek Gathani is a qualified teacher with four years of experience teaching mathematics at Haberdashers' Aske's Boys' School. He has a PGCE from the University of Oxford and a BSc in Mathematics from the University of Warwick, as well as ten years of experience of private tutoring for age groups ranging from 11+ to Further Maths at A-level.

MATHEMATICS GROUP TUITION with VIVEK GATHANI

Why Group Classes?

- **Best Practice:**
With his wealth of experience in both classroom teaching and one-to-one tutoring, Vivek has prepared these lessons to combine the best practice and pedagogy from both, in order to offer teaching of the highest standard to each student.
- **Outstanding Teaching:**
Each 90-minute-long lesson will contain key elements of outstanding teaching, including: group discussion and tasks; taking notes; analysing worked examples; starters; plenaries; and exercises tailored to each student's ability.
- **Optimum Size:**
Educational research shows that children learn most effectively when working in groups of 4-6 students. By finding the perfect balance within the group, Vivek will enable the students to challenge each other, as well as provide one-to-one support.
- **Homework and Assessment:**
Each student's progress will be monitored on a weekly basis through homework assignments, which will be marked and returned with comprehensive feedback.
- **Test and Report:**
Each six-lesson series will end with a full assessment, which will be graded and returned with a written report on the student's progress.
