

**TREFOIL
TUTORS**

**SUMMER INTERNSHIP
PROGRAMME 2018**

SUMMER INTERNSHIPS AT TREFOIL TUTORS

About Trefoil Tutors

Founded in 2011, Trefoil Tutors offers specialist one-to-one and small group tuition from qualified teachers and experienced tutors. With a particular focus on Mathematics, English and Science subjects, we offer tuition in all key subjects areas to pupils from Y4 to upper sixth form, be it preparation for exams or enriching their subject knowledge.

About summer internships

In order to enhance our services, we are now looking for three summer interns who will help us prepare for the next academic year.

These roles are designed to suit students who have recently taken their GCSE, AS or A2 examinations and are looking to pursue Mathematics-related education in the future. The interns will have the opportunity to gain work experience and keep up their Mathematics over summer, in preparation for university or A-level.

The internships will take place over two to three weeks in August with a flexible start.

We are currently offering three roles:

Role one – GCSE resources intern

This role is dedicated to assisting our senior tutor, Vivek Gathani, in creating and updating GCSE resources. It would particularly suit a student who has recently taken their GCSE or

SUMMER INTERNSHIPS AT TREFOIL TUTORS

A-level exams and is looking to further enhance his/her mathematical skills in preparation for Maths A-level or university studies.

Role two – Teaching resources intern

This role is dedicated to assisting our senior tutor, Vivek Gathani, in creating Mathematics teaching resources. It would suit a student who has recently taken their A-levels and is looking to enhance his/her mathematical skills before university.

Role three – Online resources and social media intern

This role is dedicated to managing and updating our online database of Mathematics resources and maintaining our output on social media. It would suit a person who can easily navigate new software, research documents on the internet and is interested in social media.

What we offer:

- £8 per hour
- Work experience for your CV
- Flexible start and end of the internship

What we are looking for:

- Enthusiastic mathematicians looking to maintain their mathematics over the summer
- Achievers of top grades at GCSE, AS or A2 examinations
- Interest in pursuing further studies in Mathematics, Computer Science or similar subjects
- Attention to detail

How to apply:

To apply, please send your up-to-date CV and a cover letter outlining why you would like to pursue this internship to jobs@trefoiltutors.co.uk by the 25th of May, 2018.
